Attachment 1

DiComm Wireless LLC ("DiComm") is authorized to provide Commercial Mobile Radio Service ("CMRS") and does not plan to offer telecommunications services to customers in categories other than CMRS. DiComm did not provide CMRS to public subscribers in 2005 and as a consequence does not possess customer proprietary network information ("CPNI"). Consequently, (a) DiComm does not use CPNI for internal marketing purposes; (2) DiComm does not share CPNI with affiliates or with third parties; and, (3) DiComm is not required to and does not maintain either an "opt-in" or "opt-out" system with respect to CPNI.

DiComm's President is familiar with the FCC's rules governing the use of CPNI and is the certifying officer for CPNI purposes. DiComm's President also is the individual in the organization responsible for establishing procedures to maintain the security of the CPNI of its customers. Service to the public will not be initiated and CPNI will not be gathered unless and until adequate procedures are in place to ensure compliance by DiComm with the rules of the Federal Communications Commission contained in Part 64, Subpart U of the Code of Federal Regulations.
